1 .Identification of substance

Product Name	ETHEPHON 65% SL
Chemical Name	2-chloroethyl-Phosphonic Acid
Recommended Use	For Manufacturing Use Only- Plar
Supplier Name	SHAOXING EASTLAKE HIGH-T
Address	MAHAI, DOUMEN TOWN, SHAOX
Phone Number	+86-575-88130371
Fax Number	+86-575-88037981
Web site	www.el-ht.com
Email address	sxel@el-ht.com
Emergency Phone Number	+86-575-88130465 or call your ne

Z-chioroethyi-Phosphonic Acid
For Manufacturing Use Only- Plant Growth Regulator

earest poison control centre

Section 2 – Hazards identification **GHS** Pictograms Signal words Danger Harmful if inhaled. Hazard statements Harmful in contact with skin. Causes serious skin burns and eye damage Harmful to aquatic life with long lasting effects **Precautionary Statement** Do not breathe dusts or mists Prevention Avoid breathing dust/fume/gas/mist/ vapours /spray. Use only outdoors or in a well-ventilated area. Wash hands thoroughly after handling. Avoid release to the environment. Wear protective gloves/eye protection/face protection. **Precautionary Statement** IF SWALLOWED: Rinse mouth. DO NOT induce vomiting. IF ON SKIN(or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove victim to fresh air and keep at rest in a position. Specific measures (Reference to supplemental first aid instruction). Immediately call a POISON CENTER or doctor/physician.

	Call a POISON CENTER or doctor/physician if you feel unwell. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Wash contaminated clothing before reuse.
Precautionary Statement Storage	Store locked up
Precautionary Statement Disposal	Dispose of contents/container in according with local regulation.

Section 3 – Composition / information on ingredients			
Component Information Component	CAS number	EINECS number	Mass(%)
2-Chloroethylphosphonic acid Water	16672-87-0 7732-18-5		65% 35%
	Section 4 – First-	aid measures	
NOTE TO PHYSICIAN	In case of shortnes Keep victim under o	s of breath, give oxyge observation.	n. Keep victim warm.
After inhalation	Move to fresh air. Oxygen or artificial respiration if needed. Get immediate medical attention.		
After skin contact	Immediately flush skin with plenty of water. Remove and isolate contaminated clothing And shoes. If irritation persists, get medical attention immediately. For minor skin contact, avoid spreading material on unaffected skin. Wash clothing separately before reuse.		
After eye contact	Assure adequate fl		r for at least 15 minutes. separating the eyelids with
After ingestion	If vomiting occurs n aspiration. Loosen tight clothin	g such as a collar, tie, l	an forward to reduce risk of

Section 5– First-fighting measures

Suitable extinguishing agents	Water spray, alcohol-resistant foam, CO2,Dry chemical powder.
Special hazards caused by the material, its products of combustion or flue gases	can be released in case of fire: Carbon monoxide, carbon dioxide, Chlorides and Phosphorus oxides(PO _X)
Protective equipment	Wear full protective clothing, including helmet, self-contained positive Pressure or pressure demand breathing apparatus, protective clothing and face mask.

Section 6– Accidental release measures		
Person-related safety precautions	Ensure adequate ventilation. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering. Keep unnecessary personnel away	
Measures for environmental protection	Prevent further leakage or spillage if safe to do so. Do not allow material to be released to the environment without proper governmental permits.	
Measures for cleaning / collecting	Pick up and arrange disposal without creating dust, then place in suitable container. Clean contaminated surface thoroughly.	
Additional information	See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.	

Section 7– Handling and storage

Handling

Information for safe handling	Avoid contact with skin and eyes.
	Avoid formation of dust and aerosols.
	In case of insufficient ventilation, wear suitable respiratory equipment
	If ingested.

protection against explosion and fires	Keep away from heat, sources of ignition, sparks or open flame.
STORAGE Requirements to be met by storerooms and containers	Keep in a cool, dry, well-ventilated place. Keep tightly closed until used.
Information about storage in one common storage facility	Store away from imcompatible substances such as oxidizing agents
Further information about storage conditions	No data

Section 8– Exposure controls/personal protection

Limit Values for Exposure Component	CAS number	ACGIH TLV-TWA	ACGIH TLV-STEL	OSHA PEL-TWA	OSHA PEL-STEL
2- Chloroethylphosphonic acid	16672-87-0	N.E.	N.E.	N.E.	N.E.
General protective and hygienic measures	Do not get this material in contact with skin. Do not get this material on clothing. Avoid contact with eyes. Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.				
Personal protective equipment					
Breathing equipment		ers are facin certified resp	• •	entrations the	ey must use.
Protection of hands	Wear approp	riate chemical	l resistant glov	es.	
Eye/Face protection	Use safety w for prolonged		s or safety goo	ggles as mech	anical barrier
Body protection	Use clean pr with clothing	•	covering as ne	eeded to minin	nize contact

Note:1. N.E. means not established

Section 9– Physical	and chemical	properties
---------------------	--------------	------------

Physical state, Appearance Odour PH Melting point	Liquid Light yellow to colorless Not applicable 1.5~3.0 74~75°C
Boiling point	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable
Upper/lower flammability	Not applicable
or explosive limits	
Vapour pressure	Not applicable
Vapour density(air=1)	Not applicable
Relative density	1.30~1.40 g/ml
Solubility(water)	Soluble
Partition coefficient	Not applicable
n-octanol /water	
Auto-ignition temperature	Not applicable
Decomposition temperature	170 °C

Viscosity

Not applicable

Section 10– Stability and reactivity

Chemical stability	This is a preparation which is chemical stable.
Possibility of hazardous reactions	Not available
Conditions to avoid(e.g stactic discharge, shock or vibration)	Heat, flames and sparks.
Incompatible material	Avoid contact with strong oxidizing.
Hazardous decomposition Products	Carbon monoxide, carbon dioxide, Chlorides and Phosphorus oxides(PO _X)

Section 11– Toxicological information

This product is a preparation for which toxicological data exists. The toxicological data for the product's hazardous ingredients are provided below.

Routes of Entry: Dermal contact, eye contact, inhalation, ingestion.

Acute Toxicity LD50(Rat, oral):	3400mg/kg
Skin corrosion/Irritation Serious	Cause skin irritation. Cause eye irritation.
Damage/irritation Respiratory or skin sensitization	No sensitizing effects known.
Germ cell mutagenicity Carcinogenicity	No data available No classification data on carcinogenic properties of this chemical is available from IARC,OSHA,ACGIH,EPA OR NTP
Reproductive toxicity	No data available
STOT-single exposure	No data available
Aspiration hazard	No data available
Chronic Effects	To the best of our knowledge the chronic effects of this product is not fully known. This product may be harmful if absorbed through the skin. May be fatal if inhaled. Prolonged exposure may cause disorder of respiratory tract system.

Further Information No data available

Section 12– Ecological information

Ecotoxicity Aquatic Toxicity Additional Information

No data No data

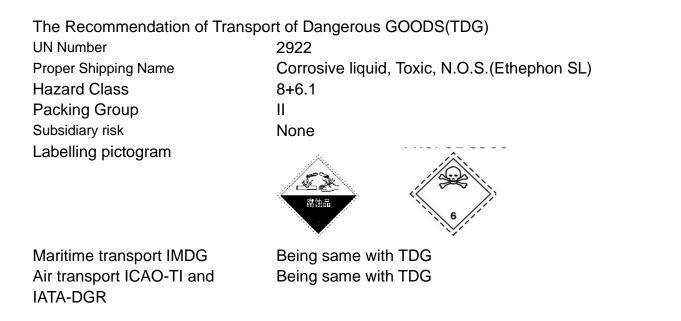

Do not allow material to be released to the environment without proper governmental permits.

Section 13– Disposal considerations

WASTE DISPOSAL INSTRUCTIONS

Contact a licensed professional waste disposal service to dispose of this material. Dispose of in accordance with local environmental regulations or local authority requirements.

Section 14– Transport information

Section 15–Regulatory information

European/International Regulations

OSHA EINECS Status	Hazardous by definition of Hazard Communication Standard (29CFR1910.1200) All components are included in EINECS inventory.
EPA TSCA Status	2-Chloroethylphosphonic acid is not included in TSCA inventory.
Canadian DSL(Domestic Substances List): Material Identification System(Ratings) WHMIS(Canadian Workplace Hazardous Material Identification System Ratings):	2-Chloroethylphosphonic acid is not included in DSL. Health: 4 Flammability: 1 Physical hazard: 0 Personal protection; K (4. Severe Hazard; 3. Serious Hazard; 2. Moderate Hazard; 1. Slight Hazard; 0. Minimal Hazard) D1A E
GB12268-2005 List of Dangerous goods	This product is a dangerous goods on the GB12268-2005 list of dangerous goods.

Section 16–other information

Edit date Revision Date Edit Standard	05/08/2015 07/10/2016 Globally Harmonized System of Classification and Labelling for Chemical Part 1.5
Disclaimer	Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is furnished without warranty, and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.
